Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 08 February 2002.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

1. The restriction requirement that set forth in Paper No. 5 is withdrawn by the Examiner because claim 16 was grouped in Group I, i.e. invention that drawn to Process, whereas claim 16 should be grouped in Group II, i.e. in invention that drawn to Device. Therefore, new restriction requirement is set forth herein below.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I, Claims 1-3, 5-9, and 11-15, drawn to Method of Manufacturing a Connection Substrate, classified in class 438, subclass 106.

Group II, Claims 4,10, and 16, drawn to Connection Substrate Device, classified in class 257, subclass 701+.

3. The inventions are distinct, each from the other because of the following reasons:

4. Inventions Group I and Group II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). A "product-by-process" claim is one in which the product is defined at least in part in terms of the method or process by which it is made. *Atlantic Thermoplastics Co. Inc. v. Faytex Corp.*, 23 USPQ2d 1481, 1488 (Fed. Cir 1992). Although it is noted that claim(s) 4, 10 and 16 is/are product-by-process claims, product-by-process claims are directed to the product no matter how actually made. *In re Taylor*, 149 USPQ 615, 617 (CCPA 1966). Consequently, it is the patentability of the final product, and not the patentability of the process, that must be

Art Unit: 2823

determined in a product-by-process claim. *In re Thorpe*, 227 USPQ 964, 966 (CAFC 1985), *Ex parte Edwards* 231 USPQ 981, 983 (BdPatApp&Int 1986). Thus, in the instant case, the product as claimed can be made by another and materially different process, such as instead of forming a metal wire on a base (i.e. a substrate) and applying an insulating material onto the metal wire form an insulating layer, a first insulating layer can be formed on a base and patterned in predetermined distance to form plurality of openings and a first metal layer can be formed in the openings and removing the patterned first insulating and forming a second insulating layer different from the first insulating layer over the first metal layer and forming a via in the second insulating layer and forming a second metal wire on the second insulating layer in order to form contact with the first metal layer.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
